### Species Requiring Rare Bird Reports to be Submitted to Regional Editor

Species

### Special Aspects

That's a wrap for Stillwater!

My Special Aspect is the same plea I have every year:

PLEASE find a way to remove compilers from this process to automate the data collection for a circle! I'll end up having invested 4–5 days of precious time right around Christmas to organize, compile, and enter the data. Compiling CBCs is an enormous lift for volunteers, especially those of us who haven't yet retired. It not only doesn't have to be this way in 2025, it \*shouldn't\*
